The Independent Production Fund was established as a private independent foundation to assist independent production companies in financing the production of Canadian television drama series for private sector broadcasters, with a capital endowment now totalling \$34 million. The annual revenues generated by this capital and return on equity constitute the funds at the Board's disposal each year. This amounts to approximately \$3 million annually. The Board of Directors is composed of seven members representing the industry.

The Fund provides equity investments to qualified independent production companies with a broadcast licence from a Canadian private broadcaster.

The focus is on (1) the production of dramatic series for prime time telecast, and (2) the production of dramatic series for children.

A portion of the fund is used for grants to non-profit organizations and associations for professional development and training activities which encourage dramatic television series development in Canada.

Deadlines

 The Fund operates primarily as an interim or bridge lender, advancing funds against secured commitments to eligible, independent Canadian producers, in order that production can be completed before all production financing payments are advanced. All production financing must be contractually committed before funds are advanced. The Fund has a strong preference for television projects and requires that a Canadian broadcaster be in place before a project will be considered. The Fund will consider many categories of programming, including drama, children's programs and documentaries; however, it is fundamental to the evaluation and selection process that the projects be outstanding in both quality and Canadian theme. THE ACTORS' FUND OF CANADA provides short-term financial aid to help performers, creators, technical personnel and other entertainment industry workers maintain their health, housing and ability to work after an economic setback.

Creativity requires risk and professionals working in film & television, theatre, music and dance must be supported as they strive to produce the finest live and recorded productions available anywhere.

A small amount of money can make a difference to a colleague who needs a boost. Your support can help to turn someone's life around after an injury, illness or sudden unemployment.

 The Alberta Motion Picture Industries Association (AMPIA) is a non-profit professional service association serving the independent motion picture production community in the province of Alberta. AMPIA was founded in 1973 with the single aim of furthering the independent motion picture industry as a viable economic and cultural force within the province. Historically, AMPIA has been recognized and called upon to serve as a voice for the Alberta film and video industries. In 1994 the Association strengthened this voice by expanding its membership to include a broader base of industry professionals within its voting membership. Likewise, the organization expanded the size and scope of the AMPIA Board of Directors to reflect the various sectors of this dynamic industry. A monthly newsletter, Keep It Rolling, goes out to more than 500 people in the film industry, both members and non-members of AMPIA. Other Association activities include industry advocacy, professional development and information services

The Canadian Picture Pioneers was formed in 1940 as an organization dedicated to the welfare of all men and women of the motion picture industry. It has grown to its present-day strength of over 900 members in six branches across the country. Original membership requirements called for 25 years of service in the industry. This period of service has now been reduced to 15 years. Anyone qualifies for membership - doorman, cashier, caretaker, manager, projectionist, booker, etc. Its Trust Fund helps members of the film industry by, for example, frequently paying additional costs not covered by a health insurance plan and providing for wheelchairs and special treatments.

Aims & Objectives

To create and promote friendly relations among those who have been or are engaged in or connected with the motion picture industry.
To create and promote friendly relations and understanding between the public and those engaged in or connected with the motion picture industry.

Pioneer of the Year Award - In 1952 the Canadian Picture Pioneers marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre - the Electric of John Schulberg on Cordova

Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montréal, A.J. Mason of Springhill, Nova Scotia, Léo-Ernest Ouimet of Montréal and Fred G. Spencer of Saint John, New Brunswick, were honoured as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days.

The next year, the Pioneer of the Year Award was inaugurated.

The most recent appointees were:

2000 — John Bailey

2001 — Doug Isman

2002 — Cathy Watson

Film Circuit, a division of the Toronto International Film Festival Group, was launched in the fall of 1995 to create a broader-based network for Canadian and significant international films. Film Circuit has launched multiple successful screenings of such films as Les Invasions Barbares, The Corporation and Flower and Garnet. These films would not have the opportunity to be shown in the smaller-sized centres across Canada without Film Circuit. Film Circuit is proving to be a viable network for helping to deliver Canadian films to a broader public spectrum. Currently Film Circuit consists of 160 active communities in Canada alone

The Film Classification Office regulates the public exhibition, rental and distribution of films and videos in British Columbia. All films shown publicly and all adult videos sold or rented through video retail outlets must be viewed and classified by the Film Classification Office, which has the authority to:

- approve or refuse the exhibition or distribution of a film or adult video
 - order removal of prohibited material
 - assign advisory captions that appear in all newspaper advertising of a film
- The Film Classification Office also:
- licenses theatres, films and video distributors and video retailers, and conducts regular inspections of theatres and video outlets
 - is responsible for maintaining community standards in film and video products distributed in B.C.
 - monitors legislation, programs and court cases relating to film classification, censorship and obscenity across Canada

The Film Classification Office was the first province in Canada to adopt the new classification nomenclature developed by provincial classification authorities for the Canadian film and home video industry. On October 1, 1997, the Province of British Columbia entered into an agreement under which the Province of Saskatchewan recognizes the classifications of films and approvals of adult video products issued by the B.C. Film Classification Office.

- (a) General — Suitable for viewing by persons of all ages. Occasional violence, swearing and coarse language and the most innocent of sexually suggestive scenes and nudity are permitted in this category.
- (b) Parental Guidance — Parental guidance advised. Theme or content may not be

suitable for all children although there is no age restriction. Motion pictures in this category may contain less subtle sexually suggestive scenes and nudity and a more realistic portrayal of violence than in the General category; coarse language may occur more often than in the General category.

- (c) 14A — Suitable for persons 14 years of age or older. Persons under the age of 14 must view these motion pictures accompanied by an adult. Motion pictures in this category may contain violence, coarse language or sexually suggestive scenes, or any combination of them.
- (d) 18A — Persons under 18 years of age must view these motion pictures accompanied by an adult. Motion pictures in this category will contain horror, explicit violence, frequent coarse language, or scenes that are more sexually suggestive than in the 14A category, or any combination of them.
- (e) Restricted — Restricted to persons 18 years of age and over. Persons under 18 years of age are not permitted to attend under any circumstances. These motion pictures are "adult motion pictures", as defined in the Motion Picture Act, and may contain explicit sexual scenes, violence or scenes referred to in section 5(3) of the Act, or any combination of them. The director will assign this classification to motion pictures if the director considers that the theme, subject matter or plot of the adult motion picture is artistic, historical, political, educational or scientific.
- (f) Adult — Restricted to persons 18 years of age and over. Persons under 18 years of age are not permitted to attend under any circumstances. These motion pictures are "adult motion pictures", as defined in the Act, and may contain explicit sexual scenes or scenes of brutality or torture to persons or animals, or any combination of them, that are portrayed in a realistic and explicit manner; however, the scenes would, in the director's opinion, be tolerable to the community.

motion picture distributor, adult film distributor, video distributor, adult film retailer, video retailer or theatre unless licensed to do so by the director in respect to each location from which the business is carried on.

Film Classification

The Ontario Film Review Board (OFRB) receives its mandate through the Theatres Act and operates as an arms-length agency reporting to the Minister of Consumer & Business Services. The Theatres Act gives the Board the authority to review and classify any film that is exhibited, rented or sold in Ontario. The Board Members take into account the general character and integrity of each film in its entirety and use the Theatres Act and a set of guidelines to determine the film classification. The Ontario Film Review Board's objective is to classify films and videos and thereby provide the public with sufficient information to make informed viewing choices for themselves and for their children.

The Board classifies film into four categories:

- General — Suitable for all.
- Parental Guidance – Parental Guidance advised. Parents cautioned that content may not be suitable for all children. Film appropriate for 14 and over and also suitable for viewing by children under 14 accompanied by an adult.
- 14A — Persons younger than 14 must be accompanied by an adult
- 18A — Persons younger than 18 must be accompanied by an adult.
- Restricted — Restricted to persons 18 years of age and over.
- Eliminations — Each film is judged on its own merit. The Board may prohibit or require eliminations in a film based on the criteria set out in the regulations to the Theatres Act.

The Canadian Audio-Visual Certification Office (CAVCO) and the Canada Customs and Revenue Agency (CCRA) jointly administer the Canadian Film or Video Production Tax Credit (CPTC) and the Film or Video Production Services Tax Credit (PSTC).

Canadian Film or Video Production Tax Credit Program (CPTC)

Under the Canadian Film or Video Production Tax Credit program, CAVCO performs two distinct functions: (1) Canadian content recognition, and (2) estimation of the eligible expenses of production. The responsibilities of the CCRA are to provide assistance to claimants; to interpret and apply section 125.4 and all other provisions of the Income Tax Act and the Income Tax Regulations that may have an impact on the CPTC; review or audit the film tax credit claims within a reasonable time frame; and provide timely refund cheques.

The CPTC is available at a rate of 25% of eligible salaries and wages expended after 1994. Eligible salaries and wages qualifying for the credit may not exceed 48% before November 14, 2003 and 60% after this date. (There's an election period, to know more about it you can call CAVCO at their toll-free number above) of the cost of the production, net of assistance, as certified by the Minister of Canadian Heritage. Therefore, the tax credit could provide assistance of up to 12% (or 15%) of the cost of production, net of assistance. However, the tax credit may not be claimed in respect of a Canadian production if any part of the cost is financed by flowing-out capital cost allowance or other deductions to investors.

Film or Video Production Services Tax Credit Program (PSTC)

CAVCO's role under the Film or Video Production Services Tax Credit is to determine the eligibility of the production and to issue an Accredited Film or Video Production Certificate on behalf of the Minister of Canadian Heritage. The CCRA's role is to provide assistance to

claimants; interpret and apply section 125.5 and all other provisions of the Income Tax Act and the Income Tax Regulations that may have an impact on the PSTC; review or audit the film tax credit claims within a reasonable time frame; and provide timely refund cheques.

The PSTC is a tax credit equal to 16% since Feb. 19, 2003 of salary and wages paid to Canadian residents or taxable Canadian corporations (for amounts paid to employees who are Canadian residents) for services provided to the production in Canada. This refundable tax credit has no cap on the amount that can be claimed, and it is available to taxable Canadian corporations or foreign-owned taxable corporations with a permanent establishment in Canada.

40% New Brunswick Film Labour Tax Credit
 To encourage the hiring of New Brunswick residents, New Brunswick Film manages a refundable labour-based film tax credit that provides a rebate to a maximum of 40% of eligible salaries paid to New Brunswick residents. Eligible wages cannot exceed 50% of the total costs of production. The value of this Labour Tax Credit may be included as part of the calculation of a production company's equity in a production. When New Brunswick Film determines that it is in the best interest of the Province, New Brunswick Film may waive the requirement that the NB Film Labour Tax Credit apply only to wages of New Brunswick residents. This may occur when in the opinion of New Brunswick Film, there is no qualified NB worker available to perform the specific function; and the out-of-province worker fulfilling this function is mentoring a New Brunswick resident. In addition, when, in the opinion of New Brunswick Film the overall economic benefits to the Province are such that a waiver is warranted. In order to receive a waiver, the producer must demonstrate that each individual waived is mentoring a New Brunswick worker and each trainee has a training plan and evaluation process in place that is approved by New Brunswick Film. The determination of the applicability of the tax credit to a specific project is fully at the discretion of NB Film.

Development Loans

New Brunswick Film provides support to qualified New Brunswick producers to assist with the development phase of an eligible New Brunswick based film production or a co-production with a New Brunswick production company. The Development Loan can include development of a dramatic treatment and research through to final draft

or outline for film or television including pre-production and budget preparation.

Equity Investment

New Brunswick Film can take an equity position in film and television productions that are produced or co-produced by New Brunswick producers.

Location Services

We read your scripts, provide digital photographs, do initial location site searches and if you come and visit New Brunswick we offer you a personalized location scouting tour, no filming permit fees and we can match you with a New Brunswick producer who can be a co-producer or a local service provider.

Film Festivals

We sponsor the New Brunswick Festival international du cinema francophone en Acadie, and the Tidal Wave Film Festival, as well as the Atlantic Canada Film Festival.

The two-year diploma course in Film Production explores many aspects of documentary and drama production. In-depth studies of the many and multifaceted crafts that are required in production provide a solid basis for second-year specialization. Essentially, the program is a hands-on endeavour and operates on a production company concept with the instructor as executive producer. Emphasis is placed on duplication of the film industry. Budget and pre-production are treated equally with production and post-production. In addition to the film core subjects the student will take a number of general subjects complementing film production. Graduates may find junior levels of employment in every area of the film industry. These include production, camera, lighting, sound, editing and writing.

The College facility, with its modern 5,200 sq. ft. media complex, trains students using industry-standard cameras, lighting and editing technologies. Students are encouraged to research, write and produce their own commercials, corporate features, and new or documentary stories. In the process, they work with both analog and digital production and post-production technology, explore the world of computer graphics, electronic publishing and multimedia, and travel the Internet as they research and develop script and other writing assignments. The program offers a balance of courses to equip students with practical / technical training as well as the theoretical / aesthetic component necessary to succeed in this industry. Students are trained in the operation of all "tools of the trade". At the same time, the program emphasizes the "process" and the "thinking" that goes into TV production. The discipline of the broadcasting industry, professional attitudes and behaviours involving initiative, judgement, responsibility and respect are highly stressed. Graduates may apply for entry-level positions as announcers, writers,

reporters, production and operations personnel and for positions in the related fields of sales, promotion, advertising and public relations

Montréal QC H3G 1M8

Cinema is composed of three areas: FILM ANIMATION, FILM PRODUCTION and FILM STUDIES. One factor which distinguishes the School's programmes from many others in cinema is that Concordia's are offered through the Faculty of Fine Arts; thus each programme approaches the subject matter first as a means of artistic and cultural expression. Consequently, a central aim of these programmes is to prepare students to become filmmakers, film animators or film historians/critics/theorists who have a two-fold awareness: one aspect involves the artistic and cultural potential of their medium; the others, its history and traditions

The Department of Media Production and Studies offers programs leading to the degrees of BFA (film & video production), BA (film & video studies) & BA Honours (film & video studies)

Overview

Given its position within the Faculty of Fine Arts, the Department of Media Production & Studies approaches its subject matter as a means of artistic and cultural expression. By focusing on the creative process, technology and the theoretical and critical analysis of film and video texts, the Department offers an environment that integrates the Studies and Production disciplines. Thus, the BA students gain both a practical and a theoretical understanding of the image-making process, and the BFA students benefit by having access to more than a simple production-oriented understanding of the same process. Furthermore, the Department's mandate encourages students/artists to develop their own unique voice in their chosen medium. The result is that the program does not turn out a single style of image-making or critical thought, but rather allows for a great diversity of expression from the most avant-garde to the most mainstream

Bachelor of Arts (four-year)

A traditional four-year liberal arts degree which allows students to develop the basic skills of analysis, problem solving, decision making and communication along with a concentration in Film Studies. Armed with these skills, a cross-disciplinary knowledge base and a strong cultural awareness, BA graduates pursue a wide range of careers in such areas as law, business, public administration, secondary and university teaching, arts administration, critics / historians, museum studies, creative writing, advertising and media consulting

Bachelor of Arts Honours

For those students who meet the higher

academic requirements, this program allows greater concentration in the major area, more independent study opportunities and close one-to-one supervision by a faculty member. Students wishing to pursue graduate studies are urged to take this program

BFA Film and Video

The program begins with an examination of the history, syntax and theory of motion pictures, and then proceeds to the basics of film and videotape production – including scriptwriting, directing, recording, editing and music. Technical production classes are complemented by classes in the history and development of cinema, including Canadian and Third World cinema, Hollywood, documentary and contemporary film. Continuation in the BFA program is based on portfolio, interview and grade average. At the end of the BFA program students are able to research and write a story and prepare shooting script to professional standards; produce, i.e., manage the business side of a production and ensure that it is marketable; and direct all aspects of a production. The program prepares students to become independent film / video artists or writers, directors and producers for the industry. While technical instruction is given and technical knowledge is required, the curriculum is not intended to train technicians
